OUR STORY

In the 1990's, due to a lack of desire to diversify to meet changing markets, Gentleman's Clubs around New Zealand began to falter and the following decade some RSA's began to follow suit and Blenheim was not immune to these trends.

In 2000 the Blenheim Workingmen's Club purchased the land and clubrooms of the Marlborough Club, merged the memberships and under one administration and management structure, both Clubs were allowed to trade freely and to maintain their respective identities.

In 2004, based on the successful merger between the two Clubs, discussion in earnest began between the Blenheim Workingmen's Club and the Marlborough Returned and Services Association, whose outdated Club Rooms sat adjacent to the Marlborough Club on the banks of the Taylor River.

Special General Meetings of the two Clubs were held with all but one member voting in favour of appointing a Project Committee with enough authority to pursue an amalgamation between the two Clubs and the construction and occupation of new combined facilities on the MRSA site.

Vast amounts of legal documentation followed and as the project started to take shape local Council approached the Clubs keen to incorporate a Council funded and operated Convention Centre within the Complex.

The concept gained approval and in early October 2007 the Members of the Blenheim Workingmen's Club, Marlborough RSA and Marlborough Club took occupation of their new multi-million dollar purpose built facilities and the Clubs of Marlborough was born.

Still recognised as the model for Club mergers/ amalgamations and the future of Clubs in New Zealand, the Clubs of Marlborough is one of the largest Clubs with over 6000 Members from the very diverse population of Marlborough utilising the Clubs extensive facilities and over the years the Clubs of Marlborough has become truly established as the Heart of the Marlborough Community.
